Professional Summary

Junior Software Developer with 1 year of related web development experience in building, maintaining, and improving web-based applications. Experienced in software development, system testing, debugging, database management, and deployment processes. Has hands-on experience working with development teams to deliver software solutions and improve existing systems. A fast learner with strong adaptability and willingness to grow in full-stack development and software engineering practices.

TECHNICAL SKILLS

Programming Languages: JavaScript (ES6+), PHP, SQL , C# , Java

Frontend: HTML5, CSS3, React.js, Tailwind CSS

Backend: Node.js, Express.js, REST APIs

Databases: MySQL , MongoDB

Tools: Git, GitHub, VS Code, Postman, XAMPP , Wordpress CMS

WORK EXPERIENCE

Software Developer Intern

MIC Department (Government) **July 2024 – February 2025** *(600-Hour)*

- Developed and supported government information systems using **PHP, JavaScript, HTML5, CSS3, and MySQL**.
- Contributed to the **Project Management System** and **Annual Investment Plan (AIP) System** to improve workflow efficiency and reporting.
- Collaborated with government officials and the IT team to gather system requirements and implement solutions.
- Performed software testing, debugging, and issue resolution to ensure system reliability.
- Assisted with database management, system deployment, and maintenance.

Frontend Developer

Proweaver Inc. **April 2025 – May 2026**

- Built and maintained modern, responsive, and user-friendly websites based on client requirements and design specifications.
- Implemented front-end features and customized **WordPress themes, templates, and plugins** to deliver functional and visually consistent websites.
- Maintained and improved existing websites by troubleshooting issues, implementing updates, optimizing performance, and ensuring compatibility across desktop, mobile devices, and different browsers.
- Collaborated with team members to deliver quality and efficient web solutions, performing quality assurance checks, identifying issues, and fixing bugs to ensure reliable project outcomes.

EDUCATION

Cebu Eastern College Leon Kilat Street

Bachelor of Science in Information Technology *Graduated 2025*.

Developed and contributed to academic and software projects involving application development, system design, debugging, and implementing solutions to address real-world requirements.
